

# RunPartner

## HOW DO I JOIN?

To join, navigate to [www.runpartner.com](http://www.runpartner.com) and click on the "Join" button

## HOW MUCH WILL IT COST MY ATHLETE?

RunPartner provides activity tracking, route mapping, and analytics to athletes for free

## HOW MUCH WILL IT COST ME?

If you choose to use the training plan feature, RunPartner charges a small fee for each athlete assigned or applies a flat team charge; there is no set up fee, and you can try our free version before purchase

## I ALREADY USE XYZ...

RunPartner is the premier platform for training plan distribution, management, and customization; it has been specifically designed around the needs of a running team

## Coaches: Create, distribute, and manage your training plans on RunPartner.com

### 1 Create a Training Plan

A well crafted training plan requires significant investment on a coach's behalf. We've seen the output of this investment take form on just about everything, including the back of a napkin. RunPartner helps a coach transfer the plan into a standard format which is organized and easy to distribute.

### 2 Assign Plan to Athletes

Whether the plan is designed for a single athlete or developed for an entire team, RunPartner allows it to be easily assigned. Once linked, your plan will be integrated with the athlete's training calendar. Over the course of the plan you will be able to make updates which are automatically reflected.

### 3 Analyze Performance and Provide Feedback

RunPartner allows a coach to visually track progress against the plan via a set of dashboards and analytics. A coach can also provide personalized feedback via comments and ratings.

**Coaches use RunPartner to track progress and provide a better overall training experience**
